ABOUT ME

I am a third-year Computer Science student and aspiring Software Engineer with hands-on experience building full-stack web and mobile applications. I enjoy translating product ideas and requirements into well-structured, user-focused systems, with attention to design, usability, and quality. I am a fast learner, comfortable collaborating with others, open to feedback, and always eager to grow my technical and communication skills through real-world projects.

EDUCATION

Cambodia Academy of Digital Technology (CADT)

Feb. 2024 - Present

Bachelors Degree

- Studied core computer science subjects including software development, data science, cybersecurity, and soft skills.
- Applied theoretical concepts through hands-on labs and real-world projects.
- Collaborated with peers to build real-world and problem solving applications using modern technologies.

Westline International School

Sep. 2019 - Nov. 2023

General Education

- Studied in khmer general education with an emphasis on science subjects.
- Outstanding student in mathematics achieving 1st place among all Westilne students.
- Achieved a B grade in the BACII national exam with high scores on scientific subjects.

Australian Education Center

Feb. 2019 - Jul. 2022

General English Program & Diploma

- Completed General English Program at ACE.
- High level english language diploma courses focused on academic reading and writing.
- Achieved an IELTS score of 7.0, demonstrating strong English proficiency.

WORK EXPERIENCE

Quicknews

Jan. 2026 - Present

Full Stack Developer & Technical Operations intern

- Technical bridge between Quicknews and an external agency, clarifying requirements, and implementation details.
- Oversaw product infrastructure including cloud services, databases, and third-party tools, ensuring stability.
- Contributed hands-on full stack development, building experimental features and administration tools.

Freelance

Jun. 2025 - Present

Full Stack Developer

- Worked on a few freelance web application projects for clients from simple websites to full stack applications.
- Confidently completed deliverables and receiving positive feedbacks.
- Assisted a startup in launching a prototype for market validation.

Cambodia Academy of Digital Technology (CADT)

Aug. 2025 - Sep. 2025

Trainer

- Tutored CADT freshmen on Data Structure & Algorithm, Javascript, Web Design and Database designs.
- Assigned lessons, assignments and final projects, while giving constructive criticism.
- Boosted student's confidence for the upcoming academic year.

ACTIVITIES & ACHIEVEMENTS

Innovative Tech Challenge

Nov. 2025- Jan. 2025

- Selected among the Top 10 shortlisted teams after training and business pitching stage.
- Attended the incubation program focused on business model refinements and prototyping of KOMPLEX.

Cambodia Startup Launchpad

Oct. 2025 - Jan. 2025

- Startup accelerator participant, validating KOMPLEX, market fit, and pitching at an international demo day.
- Completed mentor lectures and feedback on startup strategy, positioning, and adoption, with certification.

AI4Education & Digital Government Forum

Dec. 2025

- Exhibited, showcased and pitched KOMPLEX in AI4Education, and DGF to educators, students and experts.
- Received praise and feedbacks from the audience with encouragement to continue the development further.

Next Gen Engagement Program

Aug. 2025 - Sep. 2025

- Developed, pitched and exhibited KOMPLEX in a competitive program at CADT.
- Lead KOMPLEX team in development and team collaboration, awarded 2nd place in the competition.

FEATURED PROJECTS

KOMPLEX

Aug. 2025 - Present

- Web & Mobile educational platform for Khmer students with interactive learning, community posts and AI tools.
- Project lead and full-stack developer, leading both technical and business direction.
- Technology: Next.js, React Native (Expo), Express.js, FastAPI, PostgreSQL, Redis, Firebase, Cloudflare R2

Dak Louk

Dec. 2025 - Jan. 2026

- Offline-first mobile marketplace for merchants and buyers with live and social features.
- Team lead and full-stack developer, designing system architecture and merchant-facing UI.
- Technology: Flutter, SQLite

Grand Cineplex

Jun. 2025 - Aug. 2025

- Cinema management web system supporting customer, cashier, and manager operations.
- Team lead and full-stack developer, focused on manager UI, backend validation, and system architecture.
- Technology: React, TailwindCSS, Express.js, PostgreSQL

V-Menu

Apr. 2025 - Aug. 2025

- Full-stack digital restaurant menu and ordering system with multi-role workflows.
- Solo full-stack developer, designing interfaces and APIs for all roles.
- Technology: Next.js, MongoDB

SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, Python, C++, C.
- **Frontend Development:** HTML, CSS, TailwindCSS, Next.js, React.js, Three.js.
- **Backend Development:** Node.Js, Express.Js, FastAPI
- **Database:** MySQL, PostgreSQL, MongoDB, Redis, Cloudflare R2.
